Education

K.C. College of Engineering & Management Studies

Aug 2023 – May 2027

BE Information Technology — CGPA: 9.34

Thane, Maharashtra

R.K.T College of Arts, Science & Commerce

July 2021 – February 2023

HSC Science — Percentage: 77.50%

Ulhasnagar, Maharashtra

Objective

I enjoy building technology that creates measurable impact—whether through intelligent AI systems, scalable web applications, or collaborative open-source contributions. With hands-on experience in full-stack development, machine learning, and team leadership, I aim to leverage technology to solve meaningful problems while continuously evolving as a software engineer.

Projects

PayNexus | Java Fullstack 

2025

- Developed a role-based Internal Management System using Spring Boot, React, MySQL, and JWT, enabling client management, GST invoice generation, payment tracking, and MIS dashboards with automated invoice-payment status updates.

HerbVision AI | AI/ML 

2026

- Developed an AI-based plant classification system using EfficientNetB0 with transfer learning and image augmentation. Implemented preprocessing (normalization, class balancing) and a rule-based engine for personalized plant care and growth prediction based on environmental factors. Integrated an AI chatbot for interactive user guidance.

Internship

Sapphire Infocom  
Web Developer

Aug 2025 – Nov 2025

Mumbai, Maharashtra

- Built a smart agriculture management web application for digital farm record-keeping and advisory support. Krishiveda is a MERN-based platform that enables activity tracking, crop advisory, and basic analytics. As Team Lead, I handled full-stack development, API design, UI planning, and team coordination. Delivered a scalable, multilingual, and farmer-friendly solution within the project timeline.

Technical Skills

Languages: Python, Java, JavaScript,

Frameworks: React, Node.js, Express, Flutter, Angular, Spring Boot

Databases: MySQL, MongoDB, Supabase

AI/ML: Machine Learning , Data Preprocessing, Model Training , Model Evaluation

Development: API Integration, CRUD Operations, Responsive Web Design

Tools: Git, GitHub, VS Code, Google Colab, PyCharm, Android Studio , Docker , Jenkins

Certifications

- Java Programming 
- MERN Stack Developer 
- Machine Learning 

Achievements

- Secured **2nd Rank** in an **AI-Driven Poster Competition** organized by **IIC & R&D Research Club**.
- Selected and participated in **Aavishkar Inter-Collegiate Research Convention** (Zonal Round).
- Selected as an **Open Source Contributor** for **GirlScript Summer of Code (GSSoC) 2026**.
- Participated in **Smart India Hackathon (SIH)** and multiple national-level hackathons.
